**Review of Bus operations in Bhubaneswar**

**Speaker:**

**Prof. Mayank Dubey**

Xavier School of Human Settlement

Xavier University, Bhubaneswar

Within one year of its augmentation, the public transport (MoBus) operations in Bhubaneswar has hit the right chords with the aspiration of the city. With some of its unique and innovative operational strategies, the daily ridership has crossed 0.1 million mark within one year. To further improve and optimise the operations, the bus system requires benchmarking and key performance indicators for review and chronological analysis. This study is an outcome of live consultation with CRUT for improving the bus operations in Bhubaneswar.
